PROFESSIONAL EXPERIENCE

1. Full Stack Developer, in Ragns Inc

May 2025 – May 2026 | Gurugram, India

• Book My Banquets

Developed and independently managed **BookMyBanquets.in**, a production-ready venue booking platform using React.js, Node.js, Express.js, Tailwind CSS, and MySQL. Built scalable REST APIs, admin dashboard, and optimized UI/UX for performance, SEO, and lead generation.

Key Responsibilities:

- Led full-stack development, deployment, and maintenance of production web applications.
- Built scalable websites using React.js, Node.js, Express.js, and MySQL with focus on performance.
- Developed RESTful APIs with complete CRUD functionality for core business operations.
- Managed admin panel handling 1000+ listings, improving content, user and SEO management efficiency.
- Managed 5k+ users while improving application performance and load time through code optimization.
- Handled production deployment, hosting configuration, and server maintenance via cPanel.

2. Web Developer, in Zakaria Shahid Industries

Mar 2022 – July 2022 | Moradabad, India

Developed responsive web pages using HTML, CSS, and JavaScript with a focus on clean UI, cross browser compatibility, and smooth user experience. Leveraged Google Workspace tools for building, managing, and coordinating project tasks while collaborating with team members and participating in planning and review discussions.

Key Responsibilities:

- Developed responsive pages using HTML/CSS/JavaScript
- Wrote clean, maintainable code and collaborated with team members.
- Participated in team discussions to plan and review project features
- Utilized Google Workspace tools and (JavaScript) to build and automate internal apps and workflows.

PROJECTS

- **PlanMyRide– Travelling Website** | planmyride.netlify.app (React.js, JavaScript [ES6+], CSS3)
 - Built a travel booking website in React.js to manage bookings with a modular component structure.
 - Implemented dynamic state management and interactive user flows for booking features.
 - Built reusable components and scalable architecture to support feature expansion and maintainability.
- **Personal Portfolio Website** | mosimportfolio.vercel.app (HTML5, CSS3, JavaScript [ES6+])
 - Showcases technical skills, projects, and professional experience through a structured and modern layout.
 - Ensured smooth navigation with a fully responsive and user-friendly interface experience.
 - Designed a clean, intuitive UI with optimized performance and layout for better user experience.

EDUCATION

Bachelor of Computer Applications (BCA), MJPRU University

July 2022 – June 2025 | Bareilly, India
