TECH SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MySQL, Prisma, MongoDB, Mongoose
- **AI & APIs:** OpenAI API Integration, Prompt Engineering
- **Tools:** Git, GitHub, VS Code, Postman, Firebase, MongoDB Atlas, Netlify, Vercel, cPanel
- **Core Concepts:** REST APIs, CRUD Operations, Responsive Design, React Hooks

PROFESSIONAL EXPERIENCE

● Ragns.com

Designation: Full Stack Web Developer

Tenure: June 2025 to Present

Project: [Book My Banquets](#)

Developed and optimized a responsive venue booking platform, Book My Banquets, entirely built and managed independently by me. The platform enables users to discover, compare, and book banquet halls for weddings, parties, and corporate events. Built using React.js, Node.js, Express.js, and MongoDB, with frontend in React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Focused on UI/UX, performance optimization, mobile responsiveness, SEO, and lead generation flow to deliver a seamless user experience.

● Key Responsibilities

- Lead full-stack architecture, development, deployment, and maintenance of production web platforms.
- Designing and developing scalable, web applications using React.js, Node.js, Express.js and MySQL.
- Developing RESTful APIs and implementing complete CRUD-based architectures.
- Implementing dynamic frontend with React and real-time data rendering.
- Implementing authentication, validation, and error-handling mechanisms for secure applications.
- Managing end-to-end feature lifecycle from requirement analysis to production release.
- Managing production deployment, hosting configuration, and server maintenance via cPanel.

● Zakaria Shahid Industries

Designation: Web Developer

Tenure: Mar 2022 to July 2024

● Key Responsibilities

- Developed responsive pages using HTML/CSS/JavaScript
- Wrote clean, maintainable code and collaborated with team members.
- Participated in team discussions to plan and review project features

● Personal Portfolio Website | [mosimportfolio.netlify.app](#)

- **Tech:** HTML5, CSS3, JavaScript
- Showcases technical skills, projects, and professional experience.
- Designed a clean, user-focused interface with optimized layout and performance.
